Subject: Flyers Creek Wind - Bird & Bat Monitoring and Management Annual Report

Dear Mr Wagner

Reference is made to your post approval matter, MP08_0252-PA-57, the Operational Bird and Bat Monitoring and Management Annual Report (Report), covering the period May 2024 to April 2025, submitted to the NSW Department of Planning, Housing and Infrastructure (NSW Planning) on 13 June 2025, in accordance with Schedule D Condition D4 for the Flyers Creek Wind Farm Project MP08_0252 (Consent).

It was noted that four incident triggers were recorded during the period. The triggers for non-threatened species occurred in January, February and March 2025, relating to multiple carcass finds of White-striped Freetail Bats, and the singular impact trigger for a threatened species occurred in March 2025, for a Yellow-bellied Sheath-tail Bat.

NSW Planning has recorded the above triggers, noting the mitigation measures being implemented to address the matters.

Therefore, NSW Planning considers the Report to generally satisfy the reporting requirements of the Consent. Please note that NSW Planning's acceptance of this report is not an endorsement of the compliance status of the project.

Please ensure a copy of the Report is uploaded to the company website by no later than 5pm Friday 25 July 2025.

Lastly please provide a copy of the report to Conservation Programs, Heritage and Regulation Group, NSW Department of Climate Change, Energy, the Environment and Water, for their review and comment.

Should you wish to discuss the matter further, please contact Jennifer Rowe, (Senior Compliance Officer) on 0242471851 or email compliance@planning.nsw.gov.au

Yours sincerely
