Cadia / Errowanbang Road Repairs

Flyers Creek Wind Farm is undertaking essential road repair works on Errowanbang Road and Cadia Road. These works are scheduled to commence on Monday 02 February 2026 and are expected to continue for two weeks, concluding on Friday 13 February 2026.

The repair program will involve multiple patching works along Cadia Road, beginning in the north near the Newmont molybdenum plant entrance and progressing south toward the intersection of Errowanbang Road and the Mid-Western Highway.

Throughout the works, local access will be maintained. Some traffic delays are expected, and road users are advised to allow additional travel time where possible. Repair areas are indicated in Red on the below map.
